# Sunrader

Sunrader is more than just another Micro-mini Motorhome. We can talk all we want about touring and the great adventures one can have, but these mean nothing if you can't rely on what you have purchased.

At first look the discriminating buyer will undoubtedly recognize

the superiority of Sunrader. From the efficient, aerodynamic design, to the strength of reinforced fiberglass construction, to the superior fit of all components, Sunrader gives one an outstanding sense of quality — we don't take shortcuts!

But this quality goes deeper. Unlike some other motorhomes on the road today, Sunrader uses only quality components from manufacturers that can be trusted to provide the best. Names like Dometic, Sears, Toyota, Nissan, ARA, Hydro Flame and Sunrader are names you can trust. And

remember, Sunrader is fully guaranteed for 12 months or 12,500 miles, whichever comes first, from original date of purchase.

... follow the sun with all the comfort

"NO VACANCY signs and bad food is not our idea of traveling in style."

Take a look inside! This exceptionally comfortable and spacious "home on wheels" is a Sunrader Classic. Enjoy a list of Standard features that make Sunrader the best Award Winning micro-mini motorhome on the market. Check this list and we know you'll agree that a Sunrader is the ONLY way to travel.

- 3-way refrigerator
- 4-burner range/oven combo with burner cover
- quick recovery water heater
- demand water system
- spice rack
- powered range hood
- curtains
- generous tinted window placement
- high grade carpeting
- fire extinguisher
- entrance porch light
- towel bar
- bathroom vent
- 16,000 BTU ducted furnace w/electronic ignition and wall thermostat
- overhead lighting
- 5" laminated foam cushions
- mirrored medicine cabinet
- cedar lined closet compartment
- color coordinated interior.

The Dometic 3-way refrigerator/freezer with 4 cu. ft. of storage is standard on all models.

Most models feature this convenient slide-out food pantry.

Optional SportRader package includes fiberglass running boards and fender flares.

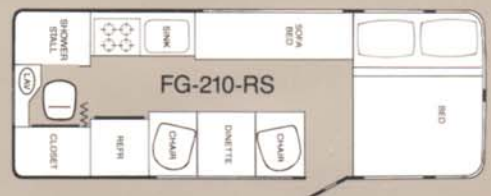

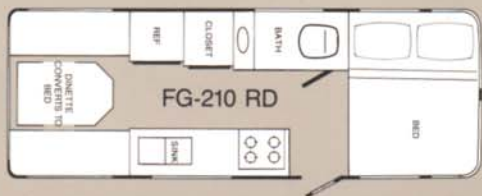

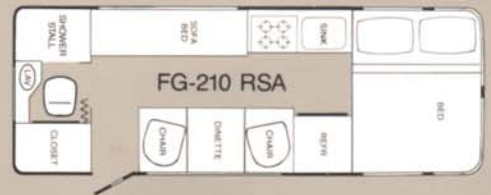

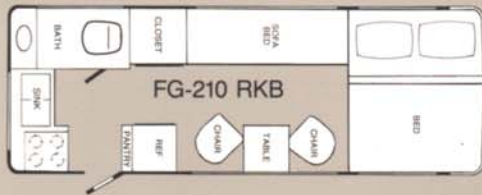

Optional low profile rooftop air conditioner from Dometic.

"A weekend camping used to mean two days of packing. Now it means turning a key."

# ports of home!

Exterior, lighted cargo compartment for added storage.

Optional awning provides needed sun protection in seconds.

## FLOOR PLANS

Optional exterior storage pod (holds lawn chairs, firewood, etc.)

For off-road adventure, the Model FG-180 RD 4 x 4.

All models feature a self-contained bathroom with toilet and unitized leak-proof fiberglass shower stall.

# ... and ONLY Sunrader.

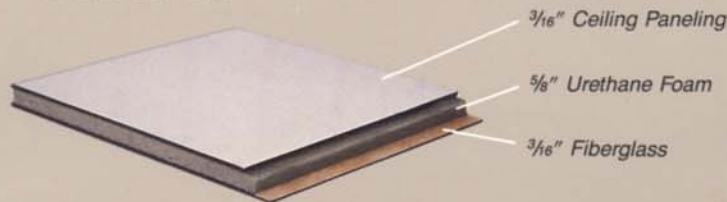

"A Patented Design That Is Superior"

FLOOR CUT-AWAY

CEILING CUT-AWAY

Sunrader is the only motorhome on the market today with this patented molded fiberglass design. 13 years of manufacturing experience has produced this unique reinforced fiberglass body (1974 U.S. Design Patent D238,353).

After the two component halves are formed, they are overlapped, screwed and fibreglassed together to form a solid "one-piece" unit.

The roof construction consists of 3/16" molded fiberglass with urethane foam and plywood. These materials are bonded together to form a seamless roof structure.

The floor and wheel wells are fibreglassed into the lower body, which increases the overall strength and forms a unibody construction.

As the floor cut-away displays, a ridged base is formed by the lamination of 3/4" polystyrene foam and plywood along with an underside of weather-resistant aluminum.

The maintenance-free exterior of your new Sunrader also provides a sleek, aerodynamic form to provide better fuel economy. In years to come you will also notice that there is no delamination as with inferior products. You are purchasing an investment value that is Sunrader . . . and ONLY Sunrader.
